4-SIDED SANDING BLOCK

PRODUCT DETAILS & SPECIFICATION

Foam Hardness:

Two types available: standard hardness and a softer, more flexible alternative. All our foam is high quality and manufactured in the UK.

Abrasive:

Aluminium oxide or silicon carbide abrasive in sizes 36 to 220. Two different grit sizes can be coated on adjacent faces of a sanding block if required.

Shapes:

There are several standard shapes; all are coated with abrasive on 4 sides.

Rectangular

Standard size: 98mm x 68mm x 25mm.

Short size: 92mm x 68mm x 25mm.

'Jumbo' Rectangular

Size: 228mm x 84mm x 25mm.

'Single Angle'

Size: 125mm x 90mm x 25mm.

'Dual Angle'

Size: 125mm x 83mm x 25mm.

Brand Printing:

We offer high resolution colour printing of your brand name and logo directly onto the sanding block foam surface. We can also print the grit size, to help the user identify the block during use.

Packaging:

Sanding blocks are available in cost effective bulk pack boxes of 250 pieces. Alternatively, we can offer customer-specific packaging such as individual colour card sleeves, display cartons or shrink wrapping.
